Safe and Easy Collaborative Touch

Communicate safely and easily by adding the AVer CP10 to your meeting spaces. This new touch panel augments business interactions with antibacterial glass, an intuitive interface, and an ergonomic viewing angle for video conferencing and meeting scheduling. It's compatible with all devices in the AVer USB CAM series to provide versatile collaborations.

One-Touch Meetings

One-Cable Connection with PoE+

Antibacterial Glass

Intuitive Interface

One Touch Starts Efficient Communication

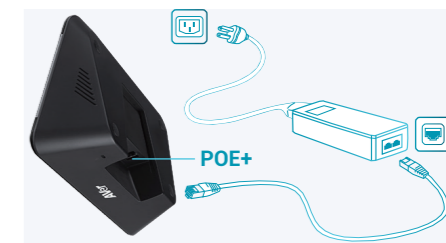

Initiate meetings with just one touch. The AVer CP10 is seamlessly integrated with Zoom Rooms software, and its capacitive-touch sensor supports 10-point touch on a 10.1-inch anti-fingerprint screen. The CP10 is always on standby.

One Cable Connects Everything

Simplify meetings via a single Ethernet connection that delivers both power and camera control. With the CP10 in the room, it's incredibly easy to keep the table clear of clutter so you can focus on your work.

**Note: PoE injector is an optional item.*

One Antibacterial Solution Keeps Everyone Safe

Enjoy a safer environment with the CP10's antibacterial touch screen. This innovative technology lets you touch the screen without leaving germs on the surface. Get the 24/7 Antibacterial protection you need.

One Intuitive Interface Simplifies Operation

Anyone can use the CP10 to run a video call, thanks to its intuitive interface. Also, the integrated AVer PTZApp enables camera setup and control, including features like visual preset points. You can even personalize the system to improve productivity.

One Step Sets up the Best Viewing Angle

Setting up the CP10 requires minimal time and energy. Plug in one cable and it's ready to use. A built-in stand offers a comfortable 23° viewing angle for ergonomic tabletop usage, or you can use it as a scheduling panel, installing it on the wall via its convenient slide-in mount.
