AVerVision A30

All-Purpose Camera

Google Cloud Partner

Google for Education Partner

The A30 is a multifunctional and all-in-one purpose camera. It's the first in the industry to feature a visualizer, microphone, and speaker in one device. At the same time, the A30 can be utilized as a webcam for video conferencing, and a document camera to visualize materials, providing the ultimate pleasure of hybrid/mobile teaching.

Absolute 4K Quality

The 13-megapixel camera delivers impressive resolution in 4K, making video capabilities impressive. Whether you take stills or videos, the A30 captures all the details perfectly.

Diverse Camera Angles

A30's extendable arm can elongate and fold to capture people/document images via multiple angles. The adjustable camera head and rotatable base are also pluses, making the A30 even more video friendly.

Dual Display Interface

The A30 has both HDMI and USB output ports for video steaming, moreover, teachers can connect to another USB camera for picture-in-picture image when using online teaching software.

AI Acoustics

The integration of the camera, microphone and speaker efficiently provide teachers with an all-in-one teaching device. Teachers can enjoy the most peaceful teaching with the aid of AVer's AI Acoustics algorithm.

AI Image Rotation

AVer's AI technology allows seamless experience in image capturing between people and document. Image flips automatically when uplifting the camera head, allowing teachers to always be seen in the correct direction.

The Included AVerTouch Software Enhances Remote Teaching

Simply connect your A30 with one touch to immediately start sharing content and annotate as you go. With its easy and intuitive functions, as well as cloud sync to provide automatic backups of your annotations, captures, and recordings, this software will help enrich the overall teaching experience with unprecedented interactivity. You can take images and videos via Google Classroom by connecting A30 to the AVerTouch software.
